Work with our amazing creative team to create a unique gift box with locally sourced products ranging from small batch sweets, sauces and home goods, to creative keepsakes and products branded to your specifications.

ORDERING PROCESS

Don't worry, we make this easy! The first step is to learn about you and your project—like any good thing, most of the work is in the preparation and we'll help you navigate the creative and logistical aspects to arrive at a final gift box, or boxes, that are perfectly reflective of your company and/or the event.

After narrowing down your vision, we will provide an accurate line item estimate of the cost of your project with all the product, service and material fees, applicable taxes and shipping costs included so there are no surprises.

Shop Made In DC handles all the product sourcing, packing and shipping from our Washington, DC base. We have quality control at every step and work carefully with our dedicated drivers for local delivery, and UPS for national and international shipping, to ensure all packages arrive at their intended destination safely and with the desired presentation.

You set the budget and give us your wish list... and let us do the rest! Order today!

PACKAGING + CUSTOM NOTES

Our standard packaging are kraft boxes, wooden crates, gift bags and white crinkle. Custom packaging and materials can be special ordered. A complimentary custom note and maker profile is included in each order.

CUSTOMIZATIONS + BRANDED PRODUCTS

Whether it's adding your logo sticker or to certain products or asking makers to brand or personalize products for you, we will work to customize an option that builds brand awareness for you and your company.

BULK ORDER

Need just the product? We can help you source from just the right maker! Bulk product orders can be accommodated for any quantity.

GET INSPIRED

Here's a few of our favorite boxes to spark your creativity! Any box/theme can be customized to fit your budget, or you can start from scratch and design your own. Note that all items pictured here are always available or may be seasonal. Comparable substitutions and variations on products can always be made.
